

HV & LV ECS UPGRADE

Aleksei Chubykin (NRC KI / PNPI)

Status.

- On detector side development is stopped .
 - *No CAEN & Maratons hardware or simulators for real work.*
- Ongoing activities.
 - *HV channels fast remapping options in HV projects.*
 - *Implement DIM protocol communication via SOL40 for FEBs in MuonHydra package.*
 - *Development of DIM devices simulator.*
 - *Almost done, awaiting the information about DIM services naming scheme in MOUN SOL40 servers from Sofia.*

Thank for your attention.
