

Joint Annual SPS CHIPP Meeting 2020

- **Annual Meeting in 2020 to take place during four days in the week of 29 June till 3 July in Fribourg**
- ✓ As in previous meetings, the CHIPP Plenary could be scheduled on Monday 29 June, with the CHIPP and SPS Board meetings taking place in the later afternoon, but other arrangements are possible as well
 - **Let us now about your preferred schedule!**
- ✓ At present, CHIPP Meetings (Plenary & PostDoc and Student days) take place every second year jointly with SPS
 - **Could we consider joint meetings every year with CHIPP?**
 - **Could still keep a CHIPP Plenary every 2nd year separately!**
- ✓ This year we would like CHIPP to take part in proposing plenary speakers
 - **Please submit proposals for plenary speakers by 11 November!**
- ✓ The SPS executive board is very much in favour of organising in collaboration with CHIPP a round table discussion at the joint annual meeting on “Big Science”, also in view of the “Update of the European Strategy for Particle Physics”
 - **We welcome suggestions on the organisation and on whom to invite for a roundtable!**
 - **Should we invite as moderator Olivier Dessibourg (Le Temps) as we did for the 60 years CERN celebration in Fribourg?**
