The growth of the Nextcloud apps ecosystem

Wednesday 29 January 2020 09:45 (15 minutes)

Nextcloud is designed as a platform, empowering organisations to meet their needs through a large ecosystem of apps covering various enterprise capabilities such as collaboration, office productivity, research, authentication, reporting and more.

This year I will be focusing on the evolution of the app store over the past 12 months, from the perspective of both users and developers.
