

Proposal to host Spring 2020 IPPOG Meeting in Ljubljana, Slovenia

A. Gorišek
Particle Physics Department, Jožef Stefan Institute

Jožef Stefan Institute, Ljubljana, Slovenia

WHY SLOVENIA

1. Slovenia is a geographic and cultural crossroad
2. Slovenia is compact with everything at your doorstep
3. Slovenia is easily accessible ★
4. Slovenia is safe and reliable
5. Slovenia is an established partner in HEP

★ Slovenian national carrier went bankrupt recently... Frequent connections should be re-established by “summer” timetable by other carriers (LH, LX,...)

SLOVENIA

From the Alps to the Mediterranean

WHY LJUBLJANA

1. Ljubljana is a compact and cosy capital city
2. Ljubljana is an established conference destination
3. Ljubljana is a festival and cultural city
4. Ljubljana has strong scientific potential
5. Ljubljana offers good value for money

HOSTING INSTITUTIONS

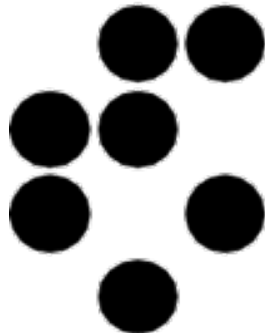

University of Ljubljana

Largest Slovenian University - ~50000 students
Strong Physics Department within Faculty of Mathematics and Physics

Jožef Stefan Institute

Slovenian National Institute for Science and Technology
~800 employees, ~400 PhD
Experimental Particle Physics Department – ~40 researchers

HEP in Slovenia today

Members of ATLAS & Belle/Belle-II, also CERN RD-39,42,50
Theory group within Dept. of Theoretical Physics at JSI
Slovenia is negotiating CERN membership

Conference organization track record

LEAP'94, ICFA'95, BEAUTY'99&'19, FPCP'07, RD50'08, Trento'12,
Lepton Photon'15 + Plenty of smaller collaboration and group meetings

LJUBLJANA HOTELS

.... There is a wide range of hotels

WITHIN WALKING DISTANCE

to the J. Stefan Institute

But public transport is also readily available

INFORMATIVE PRICES

3* hotels:

Single room: 75 – 100 €
