

International Particle
Physics Outreach Group

18th IPPOG Meeting – CERN– 28 Nov 2019

Panel discussion

Panellists:

Emmanuel Tsesmelis (CERN),

Gabriele-Elisabeth Körner (NuPECC),

Nicolas Arnaud (LAL (CNRS/IN2P3 and Université Paris-Sud)

Teresa Montaruli (APPEC)

Questions

What are the common interests of these three groups?

Questions

What are the benefits of us joining forces?

Questions

How do we do that (what activities, what format)?

Questions

What should be our priorities in targeting new countries for expansion?

Questions

What roll can IPPOG play in reaching out to new countries?

Questions

What is the most effective way we can support new countries interested in developing particle physics programs?

Questions

- What are the common interests of these three groups?
- What are the benefits of us joining forces?
- How do we do that (what activities, what format)?
- What should be our priorities in targeting new countries for expansion?
- What roll can IPPOG play in reaching out to new countries?
- What is the most effective way we can support new countries interested in developing particle physics programs?
