

Top-Higgs interplay

Wednesday, April 15, 2020 9:30 AM (30 minutes)

The top Yukawa coupling can be probed using different physics process at the LHC (tH, tH, 4-tops, etc.). The latest results on this together with global interpretations with other top (or Higgs) processes will be presented.

Presenter: Dr MORENO LLACER, Maria (Univ. of Valencia and CSIC (ES))
