

WG1: Monte Carlo, Minimum Bias Underlying Events

P. Ilten, V. Mariani, G. Paic

4 “theory” abstract already submitted
+ 1 (CMS) will come
+ 3 expected to come

3 experimental abstract submitted
+ 2 (CMS) will come
+ 1 to be confirmed (LHCb)

4 contacted but not able to attend the conference

Topic	Speaker	Status	Constraint
Pythia - collective flow	Smita Chakraborty	Abstract submitted	
Pythia - Mueller dipole evolution	Christine Rassmussen	Abstract submitted	Monday session
EPOS	Tanguy Peirog/Klaus Werner	Cannot attend	
Herwig - Update on Herwig 7	Stefan Gieseke	Abstract submitted	
Sherpa	Sherpa collaboration	Cannot attend	
DCTR	Ben Nachman	not submitted yet	TBD
CORSIKA	Ralph Ulrich	not submitted yet	Thursday
RIVET	Andy Buckley/Holger Schulz	Cannot attend	
Professor	Andy Buckley/Holger Schulz	Cannot attend	
Underlying Events	Aditya Mishra	not submitted yet	
MC study of high multiplicity jet- and UE-biased pp collisions at the LHC energies	Antonio Ortiz Velasquez	Abstract submitted	
Monte Carlo Modelling and Tuning in CMS	Vieri Candelise	Abstract present in CMS page - to be submitted	NOT Monday
Minimum Bias && UE in CMS	No candidates yet	Abstract present in CMS page - to be submitted	
CMS results on diffraction and exclusive production	No candidates yet	Abstract present in CMS page - to be submitted	
jet fragmentation ATLAS	ATLAS collaboration	Abstract submitted	
UE ATLAS	ATLAS Collaboration	Abstract submitted	
light flavour hadrons as a function of underlying event ALICE	ALICE Collaboration	Abstract submitted	
LHCb abstract	LHCb collaboration	Not confirmed yet
