

# **Asymptotic Safety Meets Particle Physics**

Monday, 16 December 2019 - Thursday, 19 December 2019

TU Dortmund

## **Book of Abstracts**

# Contents

Exploring the desert with vector-like fermions . . . . .	1
Asymptotic Safety and the MSSM . . . . .	1
Model building in $U(1)'$ extensions of the Standard Model . . . . .	1
Welcome . . . . .	1
Dirac criticality, abelian Higgs & deconfined phase transitions . . . . .	1
Critical fermions in three dimensions . . . . .	1
Anomalous magnetic moments in asymptotically safe models . . . . .	1
Collider signatures for $g-2$ and asymptotic safety (t.b.c.) . . . . .	2
Dark matter with Yukawas - feeble or not? . . . . .	2
Quantum gravity and dark matter . . . . .	2
$SU(3) \times SU(3)_{\text{dark}}$ . . . . .	2
Asymptotic Safety with Riemann Tensor Interactions . . . . .	2
Extra dimensions at colliders . . . . .	2
Quantum Gravity and the Standard Model . . . . .	2
large $N$ . . . . .	3
large $N_f$ . . . . .	3
Discussion . . . . .	3
Closing . . . . .	3

**Extensions of the SM / 2**

## **Exploring the desert with vector-like fermions**

**Corresponding Author:** kamila.kowalska@ncbj.gov.pl

**Extensions of the SM / 3**

## **Asymptotic Safety and the MSSM**

**Corresponding Author:** kevin.moch@tu-dortmund.de

**Extensions of the SM / 4**

## **Model building in $U(1)'$ extensions of the Standard Model**

**Corresponding Author:** rigo.bause@tu-dortmund.de

5

## **Welcome**

**Fermions and Flavour / 6**

## **Dirac criticality, abelian Higgs & deconfined phase transitions**

**Corresponding Author:** scherer@thp.uni-koeln.de

**Fermions and Flavour / 7**

## **Critical fermions in three dimensions**

**Corresponding Author:** c.cresswell-hogg@sussex.ac.uk

**Flavour and BSM / 8**

## **Anomalous magnetic moments in asymptotically safe models**

**Corresponding Author:** clara.hormigosfeliu@tu-dortmund.de

**Flavour and BSM / 9**

## **Collider signatures for $g-2$ and asymptotic safety (t.b.c.)**

**Dark Matter / 10**

## **Dark matter with Yukawas - feeble or not?**

**Corresponding Author:** mathias.becker@tu-dortmund.de

**Dark Matter / 11**

## **Quantum gravity and dark matter**

**Corresponding Author:** reichert@cp3.sdu.dk

**Dark Matter / 12**

## **$SU(3) \times SU(3)$ dark**

**Corresponding Author:** peter.schuh@uni-dortmund.de

**Gravity and Matter / 13**

## **Asymptotic Safety with Riemann Tensor Interactions**

**Corresponding Author:** y.kluth@sussex.ac.uk

**Gravity and Matter / 14**

## **Extra dimensions at colliders**

**Corresponding Author:** magdalena.zenglein@tu-dortmund.de

**Gravity and Matter / 15**

## **Quantum Gravity and the Standard Model**

**Corresponding Author:** g.medina-vazquez@sussex.ac.uk

**Large N / 16**

**large N**

**Corresponding Author:** [d.litim@sussex.ac.uk](mailto:d.litim@sussex.ac.uk)

**Large N / 17**

**large Nf**

**Corresponding Author:** [tommi.alanne@mpi-hd.mpg.de](mailto:tommi.alanne@mpi-hd.mpg.de)

**18**

**Discussion**

**19**

**Closing**
