

Introduction

Christopher Jones, Kyle Knoepfel, Attila Krasznahorkay

Second Overview Meeting...

- As discussed in the last meeting, we are currently collecting input from experiments with “established”, or “well-into-development” software frameworks
 - We still have a number of experiments to hear about, so the next meeting will most likely be like this as well...
- Chris and I will definitely try to approach people involved in HEP software framework development during CHEP
 - As best as we can... Feel free to approach us if you'd like. 😊
- Unfortunately the schedule after CHEP is not absolutely clear just yet
 - I myself will be offline for a few weeks
 - We will try to announce future meetings in a reasonable...

16:00	→ 16:10	Introduction	🕒 10m	✎
<p>Short introduction to the meeting, overview of things to come in the working group.</p> <p>Speakers: Attila Krasznahorkay (CERN), Christopher Jones (Fermi National Accelerator Lab. (US)), Kyle Knoepfel (Fermi National Accelerator Laboratory)</p>				
16:10	→ 16:20	LHCb Framework Efforts	🕒 10m	✎
<p>Description of the current framework development efforts in LHCb.</p> <p>Speaker: Marco Clemencic (CERN)</p>				
16:35	→ 16:45	DUNE Framework Efforts	🕒 10m	✎
<p>Description of the current framework development efforts in DUNE.</p> <p>Speaker: Michael Kirby (Fermi National Accelerator Laboratory)</p> <p> DUNE_Offline_work...</p>
