## Monday 4 May 2020

### Neutrinos I (14:15 - 16:00)

-Conveners: Peter Denton

time	[id] title	presenter
14:15	[879] Looking forward to Neutrinos at the LHC	KLING, Felix
14:30	[900] Long-lived heavy neutrino searches at the colliders	Dr DAS, Arindam DAS, Arindam DAS, Arindam
14:45	[891] Scalar and Tensor Neutrino Interactions	LIU, Hongkai
15:00	[903] Neutrino Non-Standard Interactions: Complementarities Between LHC and Oscillation Experiments	Dr JANA, SUDIP
15:15	[1049] Neutrino Non-Standard Interactions via Light Scalars	CHAUHAN, Garv
15:30	[916] How well do we know neutrino-electron scattering? EFT approach for neutrino interactions	Dr TOMALAK, Oleksandr
15:45	[918] Muonium-Antimuonium Oscillations in Effective Field Theory	CONLIN, Renae
