

Phenomenology 2020 Symposium

Tuesday 5 May 2020

Neutrinos II (14:00 - 16:00)

-Conveners: Manimala Mitra

time	[id] title	presenter
14:00	[941] Probing New Physics with Standard Double Beta Decay	GRAF, Lukas
14:15	[934] Neutrinoless double beta decay in minimal left-right symmetric model with long range contributions	CARLOS, Juan
14:30	[974] TeV-scale Lepton Number Violation: $0\nu\beta\beta$ -decay, the origin of matter and energy frontier probes	Mr URRUTIA-QUIRGA, Sebastian
14:45	[1058] Searches for Atmospheric Long-Lived Particles	ARGUELLES, Carlos
15:00	[885] Towards Minimal SU(5)	SAAD, shaikh
15:15	[991] Constraining Sterile Neutrino Dark Matter in Left-Right Theories	DUNSKY, David
15:30	-
