RF Commitments and Major Issues

Tuesday 24 January 2006 11:00 (20 minutes)

This presentation will state RF group responsibility and organisation for LHC. It will also present RF commitments on the requirements listed in the 2 previous sessions. In particular, it will address the equipments' functionality and performance expected for the different operation stages and the procedures and tests foreseen to reach these objectives.

Finally, current major issues (i.e. uncovered requirements) and possible 'Plan B' will be presented.
