

# Workshop Chamonix XV

## Wednesday 25 January 2006

### Session 05 - Experiment-Machine Interface (09:00 - 12:30)

time	[id] title	presenter
09:00	[27] Commissioning the LHC Physics Programme	TSESMELIS, Emmanuel
09:20	[69] Aspects of machine induced background in the LHC experiments	CORTI, Gloria
09:45	[70] Bringing the first LHC beams into collision at all 4 IP's	BRAVIN, Enrico
10:10	[68] The Solenoids and Dipole magnets of LHC experiments	HERR, Werner
10:35	Coffee break	
11:00	[61] Beam Dump and Injection Inhibits	WENNINGER, Jorg
11:25	[77] Beam Condition Monitoring and Radiation Damage Concerns of the Experiments	MACPHERSON, Alick
11:50	[66] Experimental equipment interacting with beam operation	MACINA, Daniela
