

WORKSHOP ON PICO-SECOND TIMING DETECTORS FOR PHYSICS

Thursday, 9 September 2021

Detector session III (13:30 - 15:10)

time	[id] title	presenter
13:30	[28] Fabrication and first full characterisation of timing properties of 3D diamond detectors	PASSALEVA, Giovanni
13:55	[29] Time resolution of an irradiated 3D silicon pixel detector	DE SIMONE, Dario
14:20	[30] Fast timing with Cherenkov photons and analog SiPMs	KRATOCHWIL, Nicolaus
14:45	[35] Recent results on fast 3D-trench silicon sensors and related electronics	LAI, Adriano
