thematic CERN School of Computing

7-13 June 2020
Split, Croatia

Efficient Scientific Software for Heterogeneous Architectures

Local Organising Committee Chair
Ivica Puljak, University of Split

Lecturers
Sebastien Ponce, CERN
Andrzej Nowak, CERN
Daniel Campora, NIKHEF and UM
Ivica Puljak, University of Split

Director
Sebastian Lopienski, CERN

Administrative Manager
Joelma Tolomeo, CERN

Technical Manager
Jarek Polok, CERN

The Thematic School is part of the annual series of CERN Schools of Computing, to promote advanced learning and knowledge exchange in scientific computing. Consisted in one week of lectures and hands-on exercises, and a rich social programme for postgraduate engineers or scientists with experience in particle physics, in computing or in related fields.

Deadline for Application 27th February 2020 - www.cern.ch/CSC
