

DIS10, XVIII International Workshop on Deep Inelastic Scattering and Related Subjects

Thursday 22 April 2010

Joint Session Diffractive and Spin: Session 9 - Ponte Vecchio (09:00-10:45)

time	[id] title	presenter
09:00	[48] Multiple interactions and generalized parton distributions	DIEHL, Markus
09:20	[49] Photoproduction of a pi rhoT pair with a large invariant mass and transversity generalized parton distribution	WALLON, Samuel
09:40	[50] The transverse single-spin asymmetry in exclusive omega and phi production on transversely polarized protons at Hermes	AUGUSTYNIAK, witold
10:00	[51] Role of diffraction in DVCS	GORSHTEYN, Mikhail
10:20	[52] GPDs studies with CLAS	GIROD, Francois
