

Session Program

19-23 Apr 2010

DIS10, XVIII International Workshop on Deep Inelastic Scattering and Related Subjects

Joint session Electroweak and QCD final states

Florence, Italy, Convitto della Calza
Piazza della Calza 6, 50125 Firenze

Wednesday 21 April

14:00

Joint session Electroweak and QCD final states: Session 7

Session | **Location:** Florence, Italy, Ponte Vecchio, Piazza della Calza 6, 50125 Firenze

14:00–14:17

Prompt photon production at HERA in the kT factorization approach

Speakers

Nikolay ZOTOV, Nikolay Zotov

14:17–14:35

Prompt photon production at HERA (presented by T. Haas)

Speakers

David Saxon, David Saxon, Mr Tobias Haas, Tobias Haas

14:35–14:52

Measurement of W+charm production cross section at CDF

Speakers

Shulamit Moed, Shulamit Moed

14:52–15:12

W/Z production/properties at the Tevatron

Speakers

Giorgio Chiarelli, Dr Giorgio Chiarelli

15:12–15:27

Measurement of the Inclusive W and Z Cross Sections in pp Collisions with the CMS Detector

Speaker

Piergiulio Lenzi

15:27–15:42

W/Z production at Atlas

Speaker

Sara Borroni

15:42
