XBOX's A(nalysis)-Team Meeting
Minutes

General Notes:

- What is there to keep or change from the analysis tools?
- Everyone to use SWAN tools for the Wednesday morning meetings

Tasks:

- **General framework:**
  - Trend data plotting to be integrated in Swan (Lee with Kai's support)
  - LabView to automatically introduce a flag when operator changes the configuration settings (Alex with Veronica's or Ben's support)
  - Documentation (Kai)
  - Signal dictionary for XBOX 3 and 4 (Lee and Alex)
  - Introduce a new calibration procedure for the reflected signals to be able to perform missing energy calculations (Lee)

- **Other**
  - Dashboard for online monitoring, read only, refresh rate: daily or weekly? (Kai)

- **Analysis examples:**
  - Line 4 (xbox3-D) pulse compressor analysis across different structures (Xiaowei)
