

Session Program

12-14 Feb 2007

**ISOLDE Workshop and Users meeting
2006/2007**

Physics 4

CERN, Council Chamber, 503/1-001

Wednesday 14 February

14:15

Physics 4

Session | **Location:** CERN, Council Chamber, 503/1-001 | **Convener:** Prof. Mark Huyse

14:15-14:40

Exotic diffusion phenomena in II-VI semiconductors

Speaker

Dr Herbert Wolf

14:40-15:00

Electronic Configurations of sp-Element Atoms at Nickel Surfaces and Interfaces

Speaker

Wolf-Dietrich Zeitz

15:00-15:20

Gamma Spectroscopy of the superdeformed shape isomers in ^{237}Pu

Speaker

Thomas James Morgan

15:20-15:40

Shape coexistence in exotic nuclei studied by low energy coulomb excitation

Speaker

Dr Emmanuel Clement

15:40
