

Session Program

10-11 Mar 2020

ACN2020

Session 3

EPFL
to be defined

Wednesday 11 March

09:30

Session 3

Session | **Location:** EPFL, to be defined | **Convener:** Tatiana Pieloni

09:30-10:00 **Studies of ultra-high gradient acceleration in carbon nanotube arrays**

Speakers

Dr Javier Resta Lopez, Thilina Aravinda Perera

10:00-10:30 **Crystal-assisted positron source**

Speaker

Dr Iryna Chaikovska

11:00-11:30 **Coffee Break**

11:30-12:00

Numerical investigation of beam-driven wakefields in hollow plasma channels modelled with carbon ions

Speaker

Mr Alexandre Bonatto

12:00
