Screening of the historical documentary The Decision. Edoardo Amaldi and Science without Borders,

Wednesday 11 December 2019 16:40 (1h 15m)

Screening of the historical documentary The Decision. Edoardo Amaldi and Science without Borders, English version of the Italian film La Scelta, by E. Agapito and Adele La Rana.

On the 30th anniversary of Edoardo Amaldi's death, the film tells the story of the life and works of one of the most relevant scientific figures of the 20th century, from his commitment to the creation of CERN and ESA and the reconstruction of European physics to his contributions to the search of gravitational waves. The film will be introduced by Nobel Laureate Barry Barish, who is writing a biography of Amaldi with film screen writer and physics historian Adele La Rana

Presenter: CATAPANO, Paola (CERN)
