

Dear ICHEP2020 participants,

below we would like to share with you information regarding the organization of the ICHEP2020 conference which is held exceptionally online this year.

The conference program is available at <https://indico.cern.ch/event/868940/timetable>

Practical handbook with information about how the parallel, plenary and poster sessions are organized, together with useful information about the Zoom videoconferencing system, are available at

<https://indico.cern.ch/event/868940/page/20641-practical-handbook>

Instructions for speakers at parallel and plenary sessions and for poster presenters are available at

<https://indico.cern.ch/event/868940/page/20617-instructions-for-speakers-and-session-chairs>

We also kindly ask all the participants to become acquainted with and respect the ICHEP2020 Code of Conduct, which can be found at

<https://indico.cern.ch/event/868940/page/20549-code-of-conduct>

We would like to note that links to Zoom rooms of parallel sessions together with passwords will be provided on Monday July 27, 2020.

There is a Mattermost chat for the ICHEP2020 conference that you can/should use for additional discussions and questions that exceed the premiere session time or belong to additional events like coffee breaks. You need to use the invitation link (that you have received in the e-mail version of this bulletin) and your CERN SSO (that you used for the registration to the conference). Some basic guidance is at the main page:

In parallel with the scientific programme, ICHEP2020 offers also a programme of talks, workshops, activities and even a DJ set for the general public. Most activities will be online, but you still have a chance to join in live with some activities and ask questions. The program and more information can be found at

<http://www.ichep2020.org/general-public.htm>

Accessibility: all plenary and public sessions will be close-captioned by White Coat Captioning.

We wish you a fruitful conference!
