

# Study on the career trajectories of people with a working experience at CERN

*Thursday 30 July 2020 10:50 (20 minutes)*

A study aiming to measure the impact of CERN and of its environment on the career of people who worked at the laboratory was requested by CERN's Director General and was carried out by the authors. The study and the results have recently been documented in a CERN Yellow Report, CERN-2019-004. The mandate, the methodology followed, the on-line questionnaires used, the analysis of the data collected and the results obtained will be presented.
