

# Time-integrated measurements of the CKM angle $\gamma$ at LHCb

*Wednesday 29 July 2020 19:08 (15 minutes)*

The tree-level determination of the CKM angle  $\gamma$  is a standard candle measurement of CP violation in the Standard Model. The latest LHCb results from time-integrated measurements of CP violation using beauty to open charm decays are presented. These include updates to previous Run 1 measurements using the full LHCb Run 1+2 data sample and the latest LHCb  $\gamma$  combination.
