

TIPP-2020

- Was planned for Whistler BC, Canada – May 24-29
- Detector conference, every 3 years avoiding Elba or Vienna conflict
- *Mid-March*: Talks [scheduled](#), speakers & other attendees supposed to be booking accommodation... but very few were.
- March 21st all participants informed conference cancelled.
- We are committed to keeping TIPP@TRIUMF alive, either:
 - As a (semi?-)virtual conference (perhaps in January or September 2021) or
 - By offering to host next TIPP at Whistler in (hopefully post-COVID) 2023, if international organizers agree.
- Would appreciate advice, and permission to proceed with either of these ideas – as originally planned, this conference was not suitable for going all-virtual, but if planned virtual from start, could be done
