Top Quark and Electroweak Physics - Posters: Block I (1:30 PM - 3:00 PM)

-Conveners: Kamil Augsten

time	[id] title	presenter
1:30 PM	[178] Measurements of inclusive four-lepton production at ATLAS	LIU, Xiaotian
1:33 PM	[179] Top-quark-antiquark production in association with a photon in the electron-muon channel at a centre-of-mass energy of 13 TeV with the ATLAS detector	MESHREKI, John Kamal Rizk
1:39 PM	[314] WZ production in leptonic decays at CMS	ÁLVAREZ GONZÁLEZ, Bárbara
1:42 PM	[534] Probing the prospective FCC-he sensitivities on the electromagnetic dipole moments of the top-quark	Dr HERNANDEZ-RUIZ, Maria A.

Top Quark and Electroweak Physics - Posters: Block II (1:30 PM - 3:00 PM)

-Conveners: Kamil Augsten

time	[id] title	presenter
1:30 PM	[542] Probing the structure of weak interactions	Dr ZAKOUCKY, Dalibor
1:33 PM	[875] Latest single top differential cross section measurements at CMS	Mr RODRIGUEZ BOUZA, Victor
1:36 PM	[903] Extraction of CKM matrix elements in the single-top t-channel events at 13 TeV with CMS	DE IORIO, Agostino
1:42 PM	[942] Measurement of differential tt production cross sections for high-pT top quarks with CMS at 13 TeV	PAPAKRIVOPOULOS, Ioannis
