ZACHARY CHEN-WISHART 13/12/2019
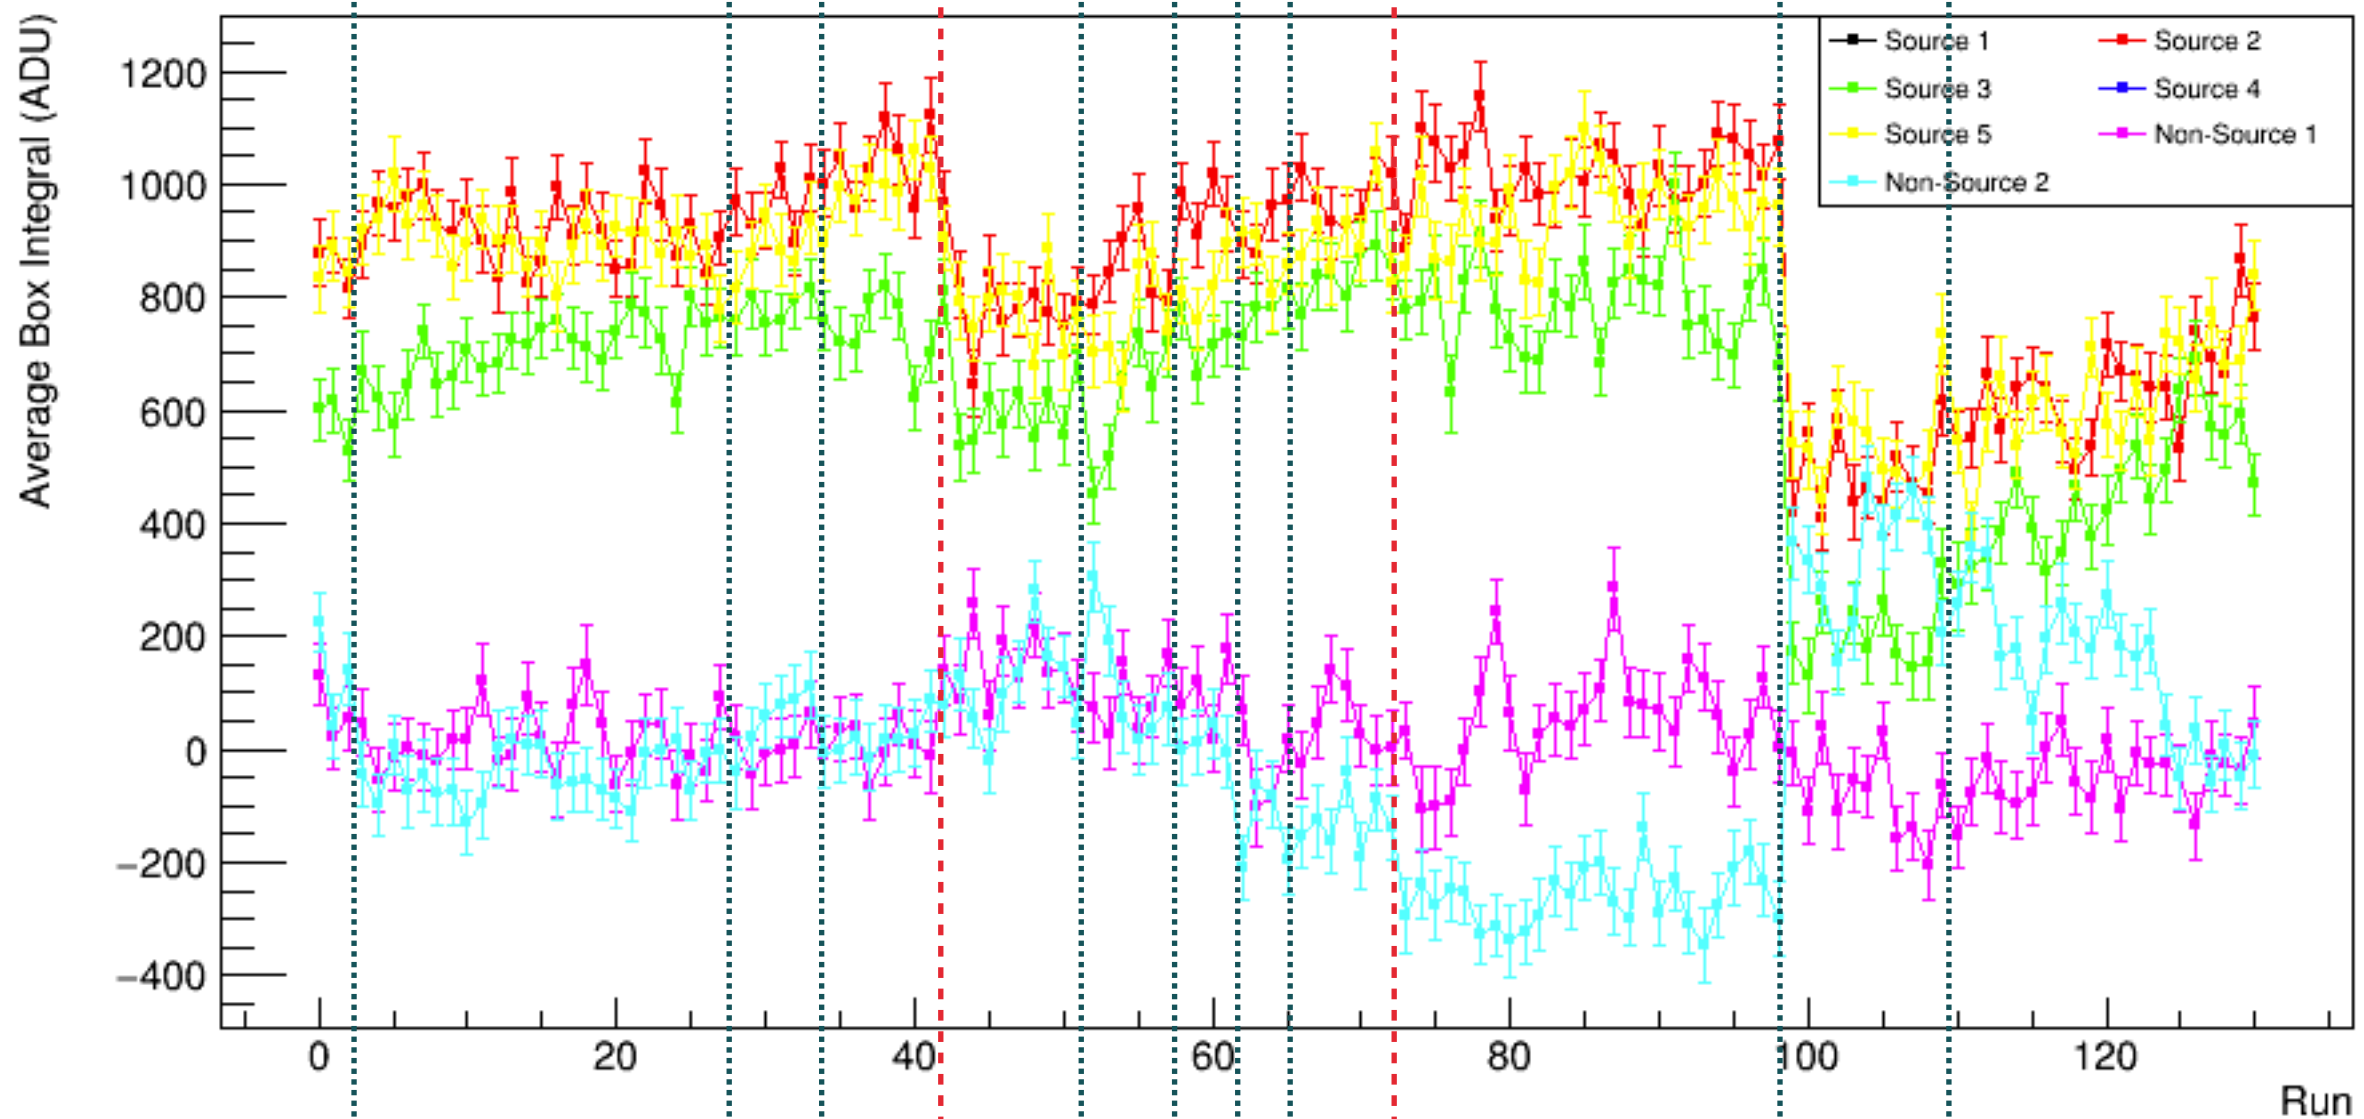

Y COLUMN CORRECTS

WITH Y COLUMN CORRECTIONS

▸ Red lines show the division between days & therefore superbas frames

▸ Blue lines show divisions between different voltage settings
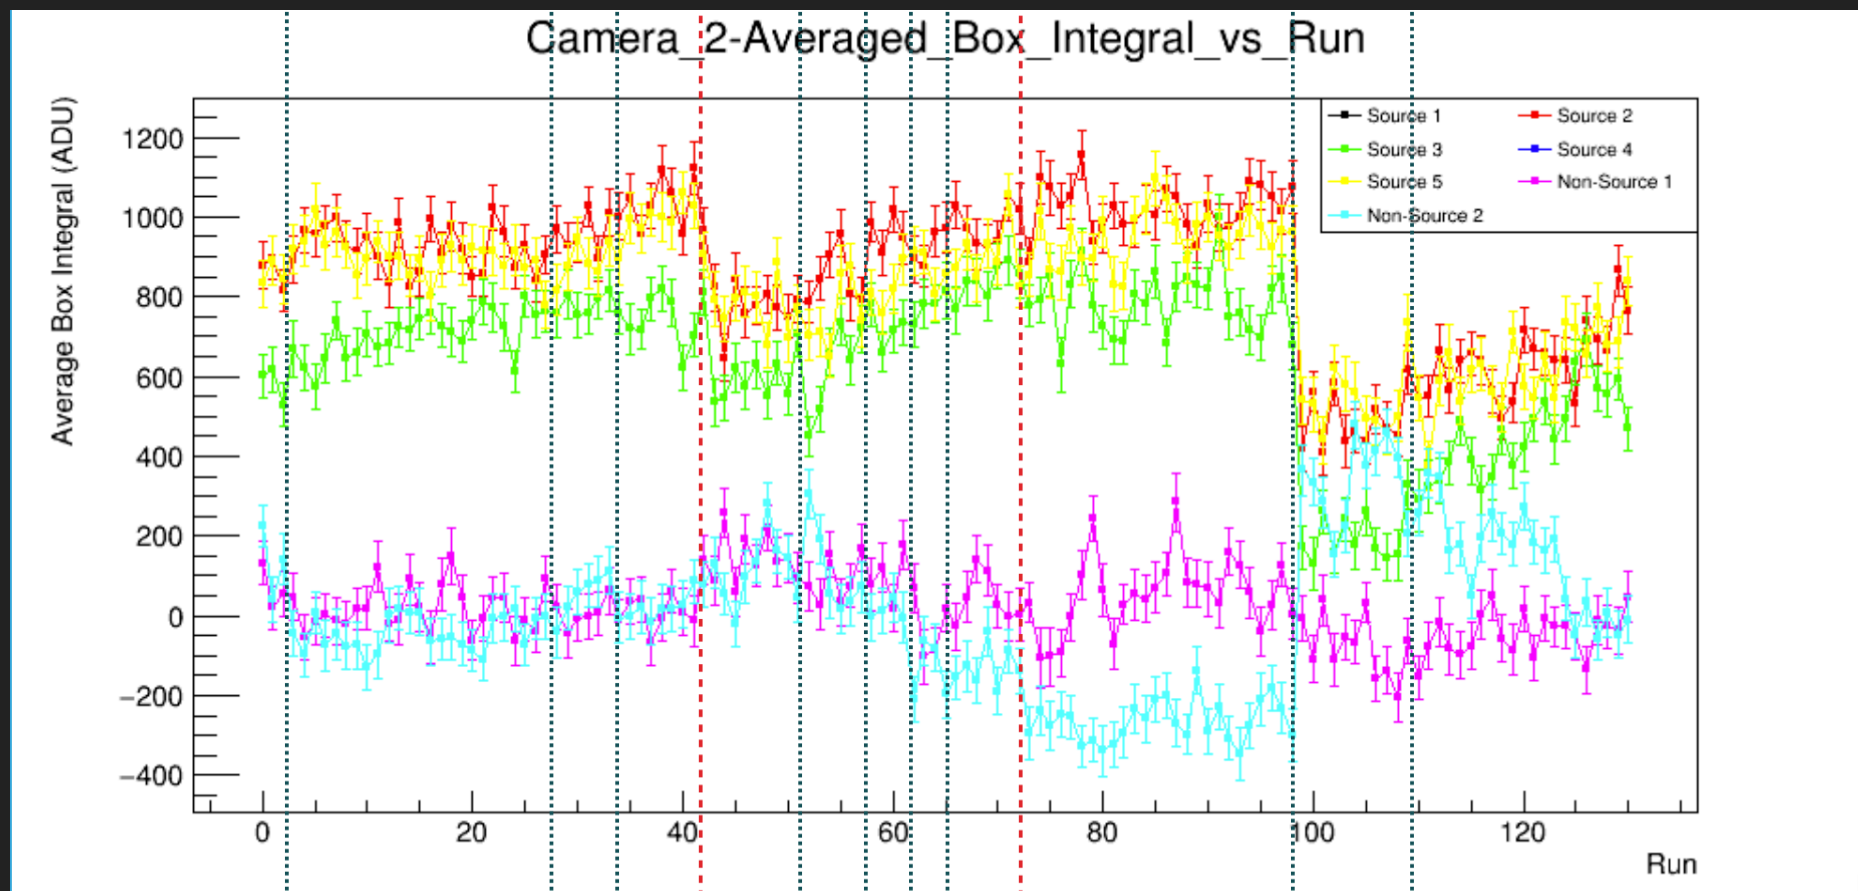

WITHOUT Y COLUMN CORRECTIONS

▸ Red lines show the division between days & therefore superbas frames

▸ Blue lines show divisions between different voltage settings

Camera_2-Averaged_Box_Integral_vs_Run

Camera_2-Averaged_Box_Integral_vs_Run

WITH Y COLUMN CORRECTIONS

WITHOUT Y COLUMN CORRECTIONS

LIGHT SUM SQUARED

▸ I have been implementing the y column per event correction

▸ Unfortunately had to do lots of bug fixing this week

▸ Now complete, would like to run over some new data sets for further tests and also using older bias frame with more jump columns to further test effectiveness
