

Internet access on CERN site

There are two possibilities on how to connect to Wi-Fi:

1. Registration with a CERN guarantor

Please connect to “CERN” Wi-Fi and register through the following link

<https://landb.cern.ch/landb/selfregistration/visitor/index#/step1>

1 Personal Details

Last Name	First Name	<i>Please fill in this information as it is required for the responsible person at CERN to approve your request.</i>
<input type="text" value="Test"/>	<input type="text" value="Test"/>	
Company / Institute (optional)		
<input type="text" value="Company / Institute (optional)"/>		
Phone (optional)	Email	<i>If you own a mobile phone, please provide its number so that your CERN contact can reach you during your stay. Please pay particular attention to the email address. This... Read more</i>
<input type="text" value="Phone"/>	<input type="text" value="e.badinova@gmail.com"/>	
Hardware Address	Card Type	<i>This address is often called Ethernet, MAC, Network or Physical Address and is often labeled on the network interface.</i>
<input type="text" value="XX-XX-XX-XX-XX-XX"/> <small>Invalid value.</small>	<input type="text" value="WIRELESS"/>	
+ Add more hardware addresses		
<input type="button" value="Next"/>		

In the second step, please add me as a guarantor (Eszter Badinova).

2 Visit Details

Arrival Date	Departure Date	<i>The arrival date is the date you arrive at CERN. If approved, the registration of your device will be valid from this date during 1, 2, 3 or 4 weeks. After this, the... Read more</i>
<input type="text" value="23-09-2018"/>	<input type="text" value="29-09-2018"/>	
Reason		
<input type="text" value="Wesley College Melbourne"/>		
Contact Person		
<input type="text" value="BADINOVA ESZTER, eszter.badinova@cern.ch, IR-REL"/>		
<input checked="" type="checkbox"/> I confirm that I know the contact person. This person will be contacted by email to confirm your request.		
<input type="button" value="Previous"/> <input type="button" value="Next"/>		

Internet access on CERN site

3 Confirmation

DO NOT submit this request if the contact person does not know you or is not aware of your request!

An email will be sent to the contact person for your approval.
After the operation is completed, a confirmation message will be sent to your email address.
By submitting this form, you agree to comply with the [CERN Computing Rules](#).

2. Can a visitor (without any CERN account) use Wi-Fi to access Internet?

Note: the coverage of this Wi-Fi connection is very poor and does not work in the CERN Hotel. We suggest you to use Option 1.

Yes, this is a new service provided by the new Wi-Fi infrastructure.

A new SSID has been introduced, named "CERN-Visitors". As its name implies, it is dedicated for visitors, and allows only access to Internet (and thus to CERN resources publicly available on Internet). This new Wi-Fi network allows people to identify themselves by a code sent to a mobile phone (rather than needing to be authorised by someone at CERN).

Simply connect the device to the "CERN-Visitors" network, and you will be redirected to a registration portal (either automatically or by opening a web browser). The first page of the portal allows you to access some resources without any registration (public links).

After having accepted the CERN Computing rules, you will be prompted for an e-mail address and a phone number. You will then receive a code via SMS to register yourself.

Once registered, you will have access to Internet. Note that we only allow http/https (on standard tcp ports) as well as other authorised services such as e-mail, VPN and SSH. This service is currently available in all the buildings where new infrastructure is already deployed (see details in [the table below](#)).

Please note that this service is dedicated for visitors who do not need to access to CERN internal resources. If you connect using a laptop or smartphone already registered for access to the CERN network, no traffic will be allowed and you will be prompted to connect to the "CERN" Wi-Fi network.
