Review of UIG mandate and discussion of the future operational processes (and manpower) for UIG

Thursday 30 November 2006 10:30 (2 hours)

The objective of this introductory session will be:

(i) To review the original mandate for the group and identify any areas in which we have diverged from this.

(ii) To discuss the proposals put forward by members of the group for re-organisation of the UIG operations and development of sustainable processes for creating and maintaining UIG resources.

(iii) To evaluate manpower requirements for these processes, identify any shortfalls, and discuss possible solutions to these.

Presenter: Dr HAMILL, Brendan (UK e-Science,Edinburgh)

Session Classification: Overview of mandate and operational process for UIG

Contribution ID: **3**   Type: **not specified**

Progress on beginner user scenarios

Thursday 30 November 2006 14:00 (30 minutes)

Review and discussion of the "beginner" user scenarios
produced to date.

Presenter: LOOMIS, Cal (Laboratoire de l'Accelerateur Lineaire (LAL) (IN2P3) (LAL))

Session Classification: Detailed walkthrough of work done so far for beginner user scenarios
