

# Status of WG5.1

**Lucian Scharenberg** *on behalf of RD51's WG5.1*  
CERN, University of Bonn

RD51 Mini Week, CERN  
10 February 2020

# Short History and Overview

- Initiated during the RD51 Collaboration Meeting at CERN in October 2019 with the aim of grouping people, involved in VMM3a/SRS
- Recurring meetings on the latest developments of VMM3a/SRS and organisation of future developments
  - **synchronisation of activities and developments related to VMM3a/SRS**
- Activities are focussed on:

A	B	C	D
Common interests	Specific interests	Maintenance and update	Organisation (e.g. production and sharing)

# Activities and People

- Organised activities and exchange on:
  - making the system more reliable (A),
  - more user friendly (A, C),
  - push the limits and introduce new features (B),
  - optimisation of sharing components (D)
- Main participants and developers:
  - RD51, CERN GDD, ESS, University of Bonn
- If you want to stay informed or even contribute to the developments, you are invited to subscribe to the e-group and participate in the meetings :-)
