Quark Pair Production at Lepton Colliders: Experimental challenges

Thursday 26 August 2021 17:00 (25 minutes)

We will discuss the experimental challenges and prospects for precision measurements of observables associated to quark pair production at e^+e^- Higgs/Top Factories (with focus in the ILC)

Author: IRLES, Adrian (IFIC CSIC/UV)

Presenter: IRLES, Adrian (IFIC CSIC/UV)

Session Classification: Lepton Colliders

Track Classification: Lepton Colliders
