

# Minimum Bias and Underlying Event Working Group

## Monday 31 May 2010

**Underlying event and tunes - TH Theory Conference Room (14:00 - 17:45)**

time	[id] title	presenter
14:00	[7] CMS: First Measurement of the Underlying Event Activity in Proton-Proton Collisions at 900 GeV at the LHC	Dr RABBERTZ, Klaus
14:30	[8] ATLAS: First Underlying Event Results at 900 GeV and 7 TeV	HARE, Gabriel
15:00	[9] Event shape and underlying event with ALICE	Dr MORSCH, Andreas
15:30	[10] CMS Cluster Analysis in Min-Bias Events	Mr LI, Wei
16:00	Coffee break	
16:15	[11] First Pythia tune to the ATLAS MB and UE data	KATZY, Judith
16:45	[12] The Early CMS Min-Bias and Underlying Event Measurements: What have we learned?	FIELD, Rick
17:15	[13] Discussion	SKANDS, Peter
