

Workshop on Detector and Physics simulation at a Muon Collider

Friday 24 January 2020

New Simulation Framework: Tracking Studies - Paolotti (09:00 - 10:50)

time	[id] title	presenter
09:00	[7] Description of the MAP tracking detector and results	CASARSA, Massimo
09:20	[8] Tracking detector studies in the new framework and next steps	BUONINCONTRI, Laura
09:40	[9] Hands ON: Tracking Simulation and track reconstruction	

New Simulation Framework: Jet Studies - Paolotti (11:10 - 13:00)

time	[id] title	presenter
11:10	[12] Jet reconstruction now and new possibilities	SESTINI, Lorenzo
11:30	[13] Hands ON: Jets reconstruction	

New Simulation Framework: b-tag studies - Paolotti (14:00 - 15:00)

time	[id] title	presenter
14:00	[14] Current b-tag method and future possibilities	SESTINI, Lorenzo
14:30	[15] Hands ON: b-tag of jets
