

NuInt 2022

Monday 24 October 2022

Shallow Inelastic, Deep Inelastic and Inclusive Scattering 2 - Convention Center (16:10 - 18:00)

-Conveners: Clarence Wret

time	[id] title	presenter
16:10	[80] Neutrino cross sections at the transition region between shallow- and deep-inelastic scattering	Dr JEONG, Yu Seon
16:30	[24] QED radiative corrections and nuclear medium effects at GeV energies	TOMALAK, Oleksandr
16:50	[25] What mean-field models can offer to the neutrino interaction community (ONLINE)	Prof. GONZALEZ JIMENEZ, Raul
17:15	[46] Measurement of numu, numu-bar CC interactions on iron using a nuclear emulsion detector in the NINJA experiment	MINAMINO, Akihiro
