

Introduction

Dimitri Delkov

1. Introduction

Born in 1990 in Novosibirskaja Oblast

Susun 26 January 2020

- visited the 301 middle school and music school (accordion and classical music)
- air force in Munich (missile defence)
- received a Bachelor degree on the „Heilbronn University of the Applied Sciences“
- absolved a supplied study in “Applied Mathematics” in Stuttgart
- absolved a Master course in “Electrical Engineering” with the focus “Electromagnetic Systems”
- PhD student on the “Technical University Ilmenau” Department: Theoretische Elektrotechnik
Supervisor: Uni. Prof. Dr.-Ing. Habil. Hannes Töpfer and
Supervisor: Prof. Dr.-Ing. Jürgen Ulm (Heilbronn)
- scientific assistant on the “Heilbronn University”

Bachelor Course:

- basic and expanded knowledge in electrical engineering
- energy conversion (plant-technology)
- basics in thermodynamics and heat flow-technologies

Supply-Study in Mathematics

- linear algebra, analysis (1,2, and 3)
- differential geometry

Master Course:

- electromagnetic field theory
- electro-magnetic devices (actors and sensors)
- magnetic materials
- numerical methods in the electromagnetic field theory

Thank you very much for
your Attention
