

JENS KRUSE-HANSEN

B. Eng. in Electrical Engineering at Aarhus University, DK

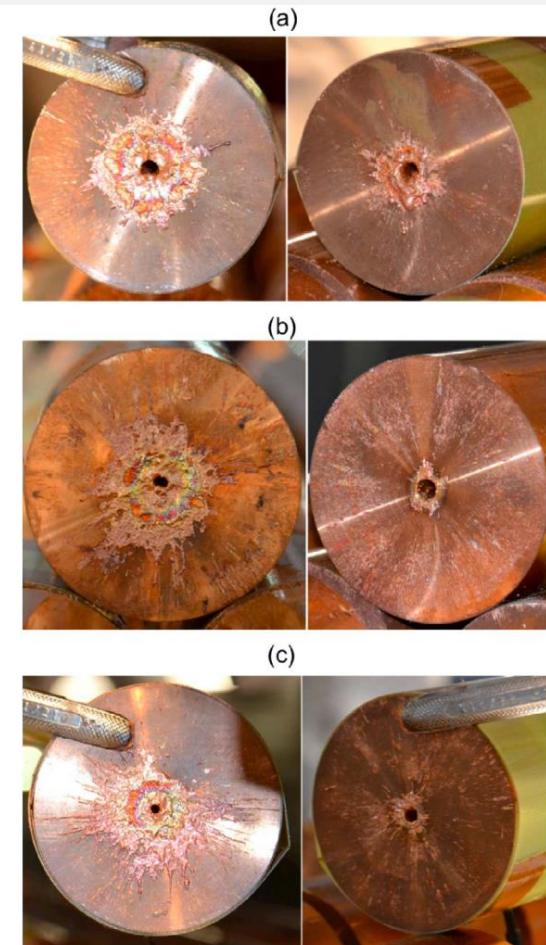

5th Semester

Living in Saint-Genis-Pouilly

HYDRODYNAMIC TUNNELING

- Short term internship from 1. August 2020 to 31. January 2021
- Density depletion due to pressure and temperature from impacting beam
 - Following bunches penetrate further into the material
- Script to couple FLUKA (Energy deposition) and Autodyn (hydrodynamic codes)
- Supervisor: Christoph Wiesner

INTERESTS

- Bouldering
- Hiking
- Fishing
- Motorbiking
- Skiing/Snowboarding
- Pretty much all sports
