(+ eventual subsistence from the collaboration).

MoU

- **The MoU has been automatically renewed, and is now valid for another 3 years, from 2020-2022 (with a new budget table in Annex 7.2 and new list of member institutes and people).**
 - It will be automatically renewed in again in 2023, unless a new MoU is drafted at the occasion of a new big project for ISOLDE, to be funded by the collaboration.
- The approved MoU, with the content as agreed in the meeting of November 2019, will be added to the Indico site of that meeting, together with the approved minutes of that meeting.
- Changes in the Annexes (contact persons, representative, contributions, new members), can be made at any time, on request of each party, and after approval by the ISCC.

Membership status

- INDIA is again negotiating about membership, either institute membership (BOSE Institute Kolkota, SINP Kolkota) or full membership
- Jovana Nikolov (Univ. Novi Sad) is looking to collaborate more actively in experiments at CERN, they and might become an institute member
-

NICOLE status

- Nov. 8: mail to inform speakers at ISCC meeting of Nov. 5 about outcome of the ISCC discussion (waiting for conclusions of INTC to decide on removal)
- Dec. 12: mail to all NICOLE spokespersons (present and former) to inform them on the closing of all experiments, and the decision of the ISCC to remove the set-up. Deadline for removal March 2020
- Jan. 20: mail from J. Stone, that they prepare for buying a dry fridge and want to recover the old one as the company ICE Oxford is interested to recover some of the equipment. Promise to inform us who will come to do the removal work and putting things into 3 existing boxes
- No news since ...
