

Dear Colleagues,

We are pleased to announce that the **International Workshop on Heavy Flavour Production in Nuclear Collisions (HF-WINC2020)** will be held in **Torino, Italy, from Thursday July 14th to Saturday July 16th 2022.**

Originally foreseen in October 2020, the workshop was postponed until now due to the known pandemic situation. We encourage everybody to participate in person, nevertheless remote participation will be guaranteed (hybrid format).

The workshop will take place in the University headquarters in the very center of the city. The large conference room will allow us to accommodate up to 100 participants with adequate spacing.

This workshop is the eighth one of a series, whose previous editions took place at Brookhaven National Laboratory in 2005, followed by Lawrence Berkeley National Laboratory in 2007, University of California, Los Angeles, in 2009, Purdue University in 2011, Utrecht University in 2012 and Lawrence Berkeley National Laboratory in 2015 and 2017.

The purpose of this workshop is to bring together theorists and experimentalists working on the production of quarkonium and open heavy flavour in nuclear collisions and their role in the study of the properties of hot QCD matter. Experimental results from the LHC and RHIC experiments and the most recent theory developments in this field will be discussed, together with future directions for the heavy flavour and quarkonium physics.

The workshop will have only plenary sessions, with invited and contributed talks. Ample time will be devoted to discussion.

The call for the abstract submission will be opened from March 15th to May 2nd 2022 and the final program of the workshop will be circulated at the end of May. The registration for in-person participation will be open until June 15th.

More information on the workshop and practical details on the venue, the accommodation and how to reach Torino can be found in the workshop web page <https://indico.cern.ch/event/883427> which will be continuously updated in the next weeks/months. We do not foresee a registration fee, as the cost of the conference room and of the coffee breaks will be funded by the local organization. The participants should cover the hotel costs, lunches and dinners. There are excellent and rather economical choices for meals close to the venue.

The local organizing committee can be contacted via the mailing list hfwinc2020-loc@lists.infn.it

Looking forward to welcoming you in Torino!

The HF-WINC2020 Local Organizing Committee
