

Saturation and Diffraction at the LHC and the EIC

Tuesday, June 29, 2021 - Thursday, July 1, 2021

ECT*

Book of Abstracts

Contents

Introduction	1
The odderon discovery	1
Odderon measurements at the EIC	1
Results from the LHC on diffraction and hadron physics	1
Physics at the EIC: QCD, saturation	1
Odderon: theoretical aspects	1
BFKL studies (tbc)	1
Mueller–Navelet jets and jet-gap-jet events with the CMS and TOTEM experiments	2
Low x physics and cosmic rays (tbc)	2
Multiplicity studies in heavy ions (tbc)	2
Top physics in heavy ions (tbc)	2
Saturation physics	2
Odderon and glueballs	2
Gluon imaging using azimuthal correlations in diffractive scattering at the EIC	3
calculation of dijet production in DIS at next-to-leading order in the CGC approach	3
The maximal odderon model	3
The STRONG2020 network	3

1

Introduction

Corresponding Authors: abhay.deshpande@stonybrook.edu, martin.hentschinski@gmail.com, soeren@kaiden.de, christophe.royon@cern.ch, gregory.soyez@cern.ch, agustin.sabio.vera@cern.ch

2

The odderon discovery

3

Odderon measurements at the EIC

Corresponding Author: yoshitaka.hatta@gmail.com

4

Results from the LHC on diffraction and hadron physics

Corresponding Author: irais.bautista.guzman@cern.ch

5

Physics at the EIC: QCD, saturation

Corresponding Author: zhoudunming.tu@cern.ch

6

Odderon: theoretical aspects

Corresponding Author: leszek.motyka@uj.edu.pl

7

BFKL studies (tbc)

Corresponding Author: dmiivanov@gmail.com

8

Mueller–Navelet jets and jet-gap-jet events with the CMS and TOTEM experiments

Corresponding Author: c.baldenegro@cern.ch

9

Low x physics and cosmic rays (tbc)

Corresponding Author: anna.stasto@cern.ch

10

Multiplicity studies in heavy ions (tbc)

Corresponding Author: javier.alberto.murillo.quijada@cern.ch

11

Top physics in heavy ions (tbc)

Corresponding Author: georgios.krintiras@cern.ch

12

Saturation physics

Corresponding Author: cyrille.marquet@cern.ch

13

Odderon and glueballs

Corresponding Author: melnikov@physics.rutgers.edu

14

Gluon imaging using azimuthal correlations in diffractive scattering at the EIC

15

calculation of dijet production in DIS at next-to-leading order in the CGC approach

Corresponding Author: paul.caucal@gmail.com

16

The maximal odderon model

Corresponding Author: yevgen.martynov@cern.ch

17

The STRONG2020 network

Corresponding Authors: nestor.armesto@usc.es, tuomas.v.v.lappi@jyu.fi
