Week 5

29th of February, end of PSB shutdown
For the PSB please cross check that

- All PSB activities will be completed by the end of the shutdown, if not inform EN-ACE and BI coordinators
- BI instruments are ready for IST period
- No material(any kind) is left in the machine and in the RP buffer zone
- Inform us as soon as possible of any special request for the IST-hardware commisioning period

For the PS, switch yard, TT2 please cross check all the activities have been declared and appear in the schedule.

A special attention for the general maintenance activities, if there is a new request inform us and EN/ACE asap such that we can plan and add those missing activities to the list.

If you already know that an activity will last longer than the PS shutdown(will end the 2nd of june) inform us.
