

Session Program

31 March 2020 to 2 April 2020

Muon Collider Working Meeting 2020
Physics @ 3 TeV and @ energy frontier

Tuesday 31 March

14:30

Physics @ 3 TeV and @ energy frontier Session

14:30–14:55 **CLIC @ 3 TeV: physics analysis**

Speaker

Marcel Vos

14:55–15:20

Physics potential of CLIC @ 3TeV: perspectives towards higher energies

Speaker

Marc Riembau

15:20–15:45

Physics at a multi-TeV muon Collider

Speaker

Antonio Costantini

15:45–16:10

Higgs potential: 4-linear self coupling

Speaker

Mauro Chiesa

16:10–16:30

H->bb coupling precision measurement at a muon collider

Speaker

Donatella Lucchesi

16:30–16:45

Probing heavy neutrinos at muon colliders

Speaker

Dr Julien Baglio

16:45–17:00

Break

17:00–17:20

Discussion - next steps

17:20
