

Session Program

31 March 2020 to 2 April 2020

Muon Collider Working Meeting 2020

Muon Collider: key issues and priority plans

Thursday 2 April

14:10

Muon Collider: key issues and priority plans

Session | Location:

14:10-14:35 **LEMMA update**

Speaker

Alessandro Variola

14:35-14:55

Theoretical model for the evaluation of the thermal stability of solid targets in a low emittance muon collider

Speaker

Roberto Li Voti

14:55-15:15 **Positron source performances**

Speaker

Dr Iryna Chaikovska

15:15-15:30 **Channeling Radiation for Muon Collider**

Speaker

Laura Bandiera

15:30-15:45 **Crystals for applications in a muon collider**

Speaker

Andrea Mazzolari

15:45-16:15 **HTS magnets**

Speaker

Daniel Schoerling

16:15-16:40 **Possible contributions of CEA DACM to a muon collider study**

Speaker

Dr Antoine Chance

16:40
