

**Session Program**

**5-8 Jul 2021**

**Rencontres QGP France 2021**

***Open heavy flavours***

## Tuesday 6 July

09:00

### Open heavy flavours

Session

09:00–09:35 **Review talk on heavy flavour production**

**Speaker**

Pol Bernard Gossiaux

09:35–10:05

**Kt-factorization calculations for D and B meson production using a variable-flavor-number scheme**

**Speaker**

guiot benjamin

10:05–10:35

**First observation of Bc meson production in PbPb and pp collisions with CMS**

**Speaker**

Guillaume Falmagne

10:35

11:00

### Open heavy flavours

Session

11:00–11:30 **Heavy flavour production in fixed target at LHCb**

**Speaker**

Felipe Andres Garcia Rosales

11:30
