

Session Program

5-8 Jul 2021

Rencontres QGP France 2021

***Soft particle production and QCD phase
diagram***

Monday 5 July

17:55

Soft particle production and QCD phase diagram

Session

17:55–18:25

Testing CPT theorem via the mass differences between anti-hyperons and hyperons with pp data of LHC run II

Speaker

Romain Schotter

18:25–18:55

Energy and Flavour Dependence of the Chemical Freeze-out of in Heavy Ion Collisions via Statistical Hadronization

Speaker

Fernando Antonio Flor

18:55–19:25

Correlated production for strangeness : measurement of the yield ratio of Omega (sss) and Phi(ssbar) with pp data of LHC run II

Speaker

Romain Schotter

19:25

Tuesday 6 July

11:30

Soft particle production and QCD phase diagram

Session

11:30–12:00

Dynamical Thermalization in Heavy-Ion Collisions

Speaker

Mrs Mahbobeh JAFARPOUR

12:00–12:30

Bottom-up thermalisation at next-to-leading order

Speaker

Jacopo Ghiglieri

12:30
