The graph shows the relationship between $k_n$ and $\omega_n \Delta t$ for different values of $\omega_n \Delta t$: $20$, $50$, and $100$. The x-axis represents $k_n \Delta t$ ranging from 1000 to 8000, while the y-axis represents $k_n \Delta$. The graph includes three lines, each corresponding to a different $\omega_n \Delta t$ value, illustrating how the system's response changes with varying parameters.
