Draft Schedule for PSD12

Following a similar format to the PSD11 conference (discussed above):

• Sponsors and exhibitors are being approached but we need to follow up urgently whether the NOC have made approaches or not

• **Keynote speakers: identify and start inviting keynotes “by November”:** NOC asked to send suggestions as soon as possible

  We should also ask the IAC. Perhaps in some cases also inquiring as to whether they would personally agree to be keynote speakers

• Registration: will be opening in February with “early bird” rates until the start of July.

• Abstract submissions: to open in February and close at the start of May (for PSD11 the deadline was extended until end of May)

• Abstract reviews: Between the start of May and middle of June

• Oral/Poster outcomes: contact submitters by end of June
