

Thurmelec

CONCEPTION ET INTÉGRATION
DE PRODUITS ÉLECTRONIQUES

Started in
2004

From the old
electronic division
of **CLEMESSY**

5M€
turnover

More than
20%
for export

40
employees

Privileged
partnership with

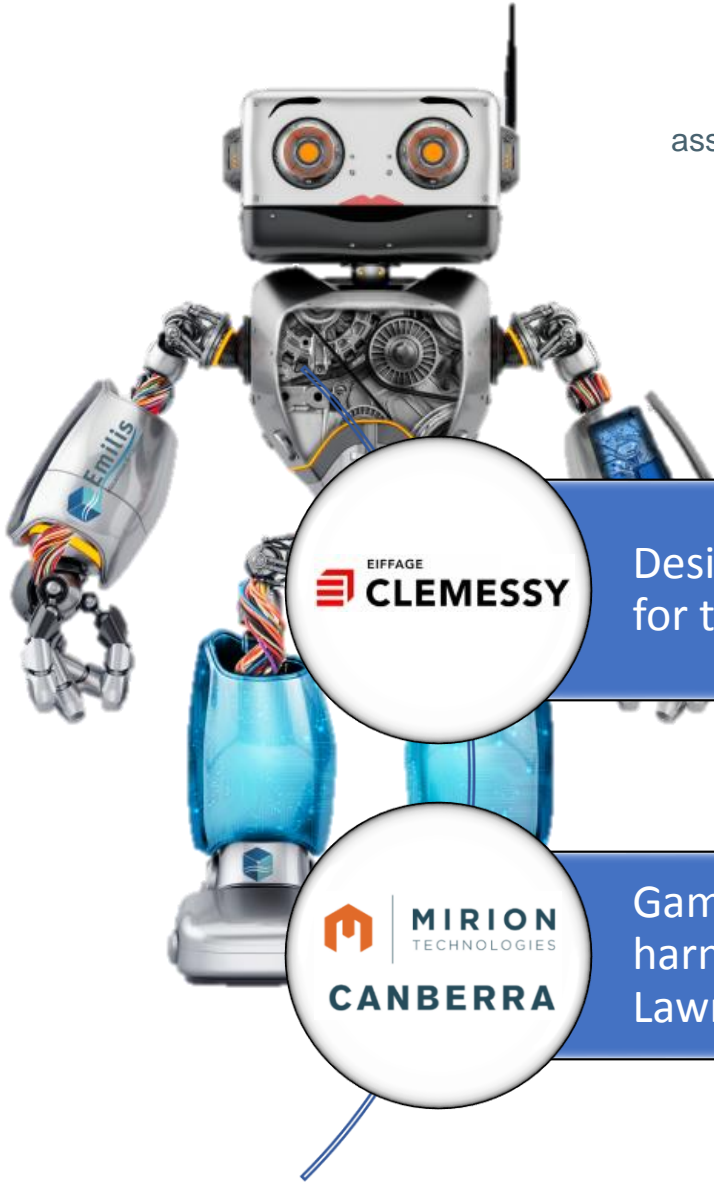

Florent Venancio
Business Developer
La France Au CERN – November 18 & 19,
2020

Electronic Integration

As an integrator, we are able to support our customers in the production of electronic boards and to assemble them in sub-assemblies or complete products based on sheet metal, plastic parts, or aluminum foundry.

Design and production of safety relay boards for the Flamanville EPR

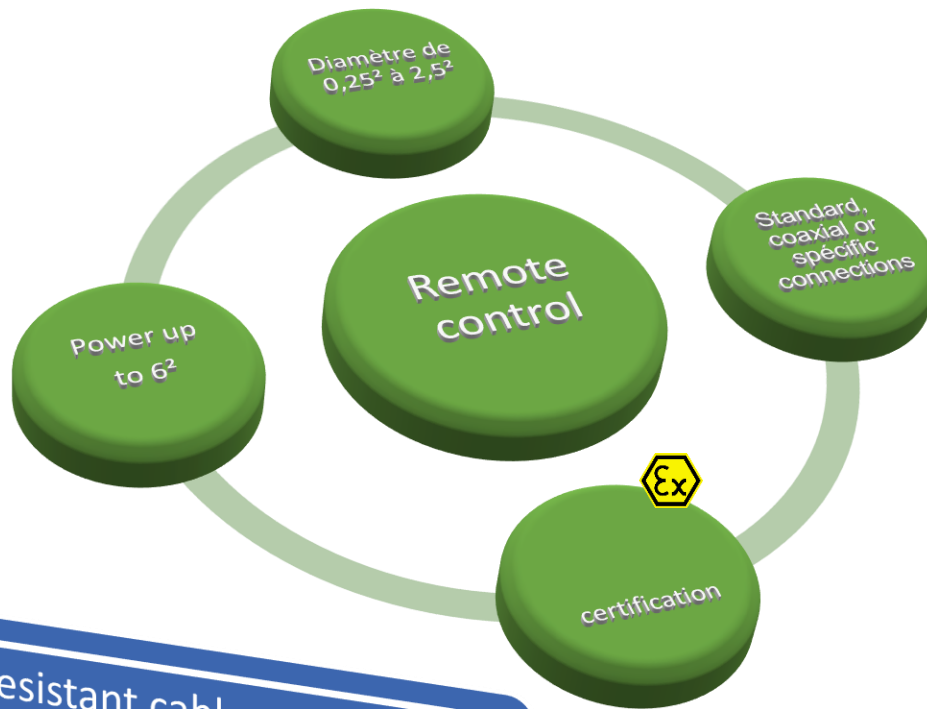

Gamma ray detector cards and wiring harnesses (GRETA project - GRETINA, Lawrence Berkeley National Laboratory)

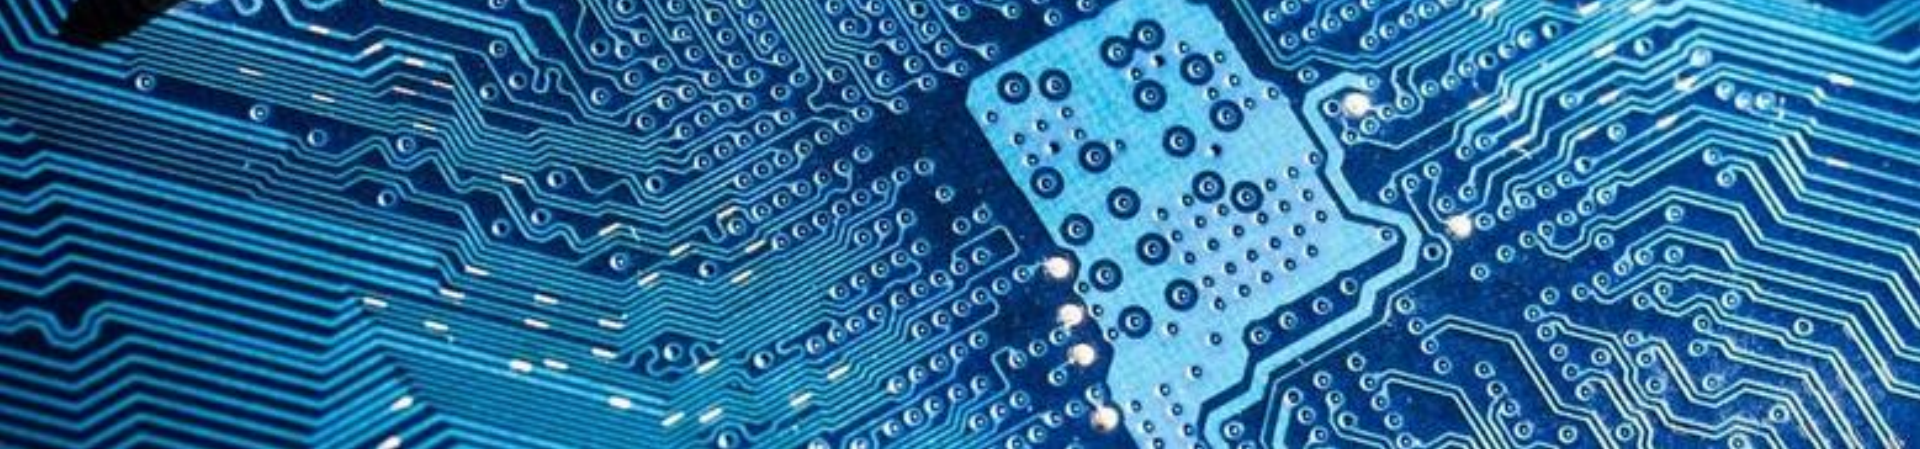

Wiring

Thurmelec produces cables and wiring harnesses on behalf of its various customers implementing any type of connection (SCSI, CHAMP, QUADRAX, TWINCAM...) in small and medium series

Splicing of gamma ray resistant cables and standard cables for CERN Geneva's measuring chamber

ATEX cables – resistance 40 bars

25 Aire de la Thur – 3, Allée Robert Schuman – 68840 PULVERSHEIM
