Believes in
magic

4th Red LHC Workshop: Welcome!!

Sven Heinemeyer, IFT/IFCA (CSIC, Madrid/Santander)

zoom, 11/2020

on behalf of:

Juan Antonio, Barbara, Carlos, Cibran and Carmen (ex officio)

The poster features a central image of the LHC tunnel with a red glow. The text is as follows:

4th Red LHC Workshop
4 - 6 November 2020 (virtual)

Organizers:
J.A. Aguilar-Saavedra
B. Álvarez González
C. Escobar Ibáñez
S. Heinemeyer
C. Santamaría Ríos

Logos for 'Red LHC España', the Spanish Government (GOBIERNO DE ESPAÑA), and the Ministry of Economic Affairs and Competitiveness (MINISTERIO DE ECONOMÍA, INDUSTRIA Y COMPETITIVIDAD) are present. A URL <https://indico.cern.ch/e/redlhc4> is at the bottom left.

3rd Red LHC workshop: 05/2019

We thought:

it is time to see each other again, and to discuss our recent work

Differences w.r.t. 3rd Red LHC workshop

- fully virtual
- only three 1/2 days
- only invited/contributed talks
 - ⇒ each 12'+3' ⇒ WE WILL BE VERY STRICT
- more talk requests than ever before
- no “round table” etc., we do not expect this to have worked well
- finally three experimental organizers (JA, SH: pew . . .)
- “virtual beer” tomorrow evening

We had planned to do it very light . . .

. . . then more and more talk requests came in

Topics:

1. SM/top → 8 talks
2. Higgs → 9 talks
3. BSM (short lived - the particle, not the theory) → 8 talks
4. Experimental anomalies → 7 talks
5. virtual beer ⇒ everybody with a beverage can contribute!
6. Long lived particles → 5 talks
7. Roadmap LHC physics in Spain → 1 talk, 1 intro, many “3 slides”

Some “guidelines” :

- speakers: switch on your video
- chairs: switch on your video
- questioner: please, switch on your video

⇒ so that it is not too virtual

- each talk has 12'+3'
⇒ WE WILL BE VERY STRICT! (in the talk time)
Remember: we can switch off your microphone ;-)

Only if there is interaction, we will profit from this workshop!

⇒ do not hesitate to ask your questions

Let's get started:

The poster features a large, detailed 3D rendering of the LHC tunnel's interior, showing the complex structure of the superconducting magnets and the central beam pipe. The scene is illuminated with a warm, reddish-orange glow. The text is overlaid on the top left and bottom right of the image.

4th Red LHC Workshop

4 - 6 November 2020 (virtual)

Organizers:
J.A. Aguilar-Saavedra
B. Álvarez González

<https://indico.cern.ch/e/redlhc4>

And the next time we see each other in 3D! :-)
