

QM 2022

Wednesday 6 April 2022

Parallel Session T15: Future facilities and new instrumentation: I - large aula A (11:10 - 13:10)

-Conveners: Federico Antinori

time	[id] title	presenter
11:10	[615] STAR Forward Detector System Upgrade Status	SUN, Xu
11:30	[727] Expected performance results from upgraded LHCb and SMOG II	MARIANI, Saverio
11:50	[171] The ATLAS Upgrade Program	CITRON, Zvi
12:10	[590] The sPHENIX experiment at RHIC	GO, Yeonju
12:30	[675] Status of the Compressed Baryonic Matter (CBM) Experiment at FAIR	AGARWAL, Kshitij
12:50	[435] Approaching first physics in NICA-MPD at JINR	AYALA, Alejandro

Thursday 7 April 2022

Parallel Session T15: Future facilities and new instrumentation: II - small aula (14:40 - 16:20)

-Conveners: Piotr Salabura

time	[id] title	presenter
14:40	[794] Commissioning runs of J-PARC E16 experiment performed in 2020-21	ICHIKAWA, Masaya
15:00	[473] Measuring dilepton and heavy quark production at large \sqrt{s} ; the NA60+ experiment at the CERN SPS	SCOMPARIN, Enrico
15:20	[280] Upgrades toward a comprehensive QGP detector at CMS for the high luminosity LHC era	STAHL LEITON, Andre Govinda
15:40	[148] ALICE upgrades and preparations for physics in Run 3	ALKIN, Anton
16:00	[150] Future ALICE upgrades for Run 4 and beyond	SCHEID, Horst Sebastian
