Industrial Liaison Office

Industrial Return:

2018: 59K €

2019: 120K €

Companies Registered:

2018: 7

2019: 23

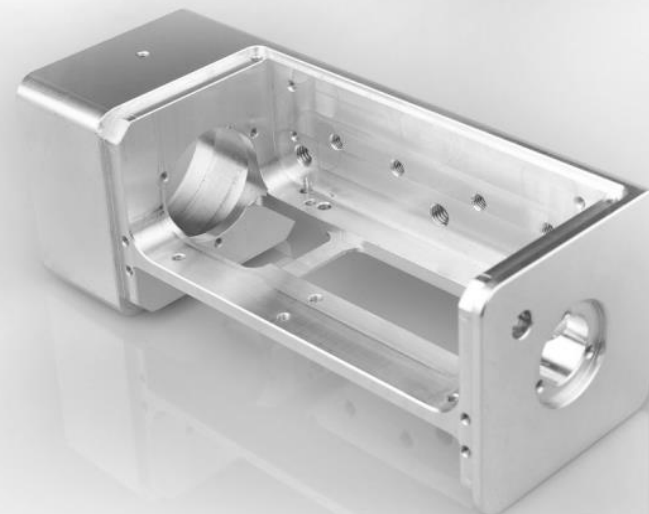

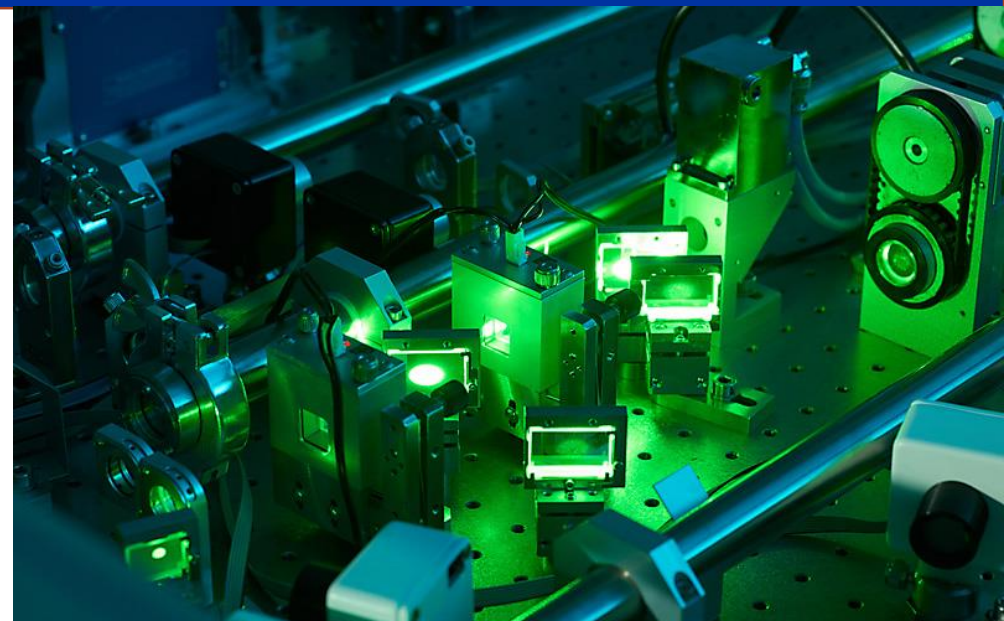

Companies doing business:

2018: 7

2019: 14

Companies from:

- Laser, Optics sector
- Mechanical & Materials Engineering

Industrial Liaison Office

Problem:

Lithuania is practically ineligible to participate in Invitation to Tender.

LT contribution to CERN budget: 900k €

Of these - salaries to LT employees: 500k €

That leaves - Procurement Ceiling: 400k €

This year's Industrial Return: 120k €

Available for return: <300k €

Invitation to Tender Cost Range A: 200k - 1M €

Motivation:

Large number of procurement for supply of HVAC and cooling.

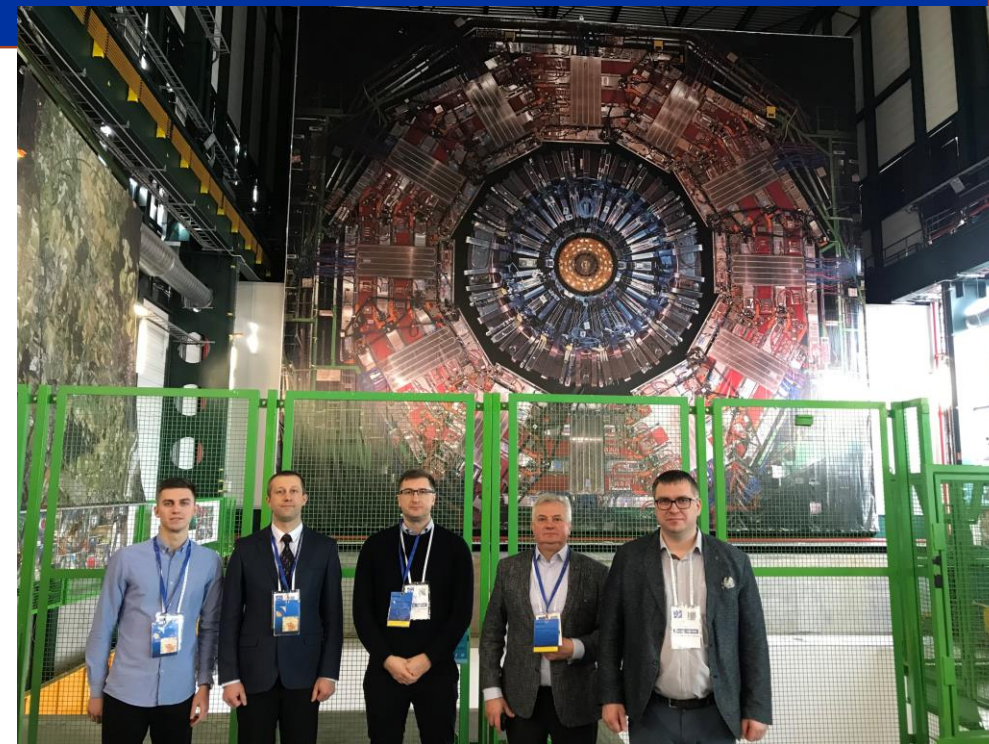

Lithuania is very competitive in this domain.

Proposition:

Once in 3 years participate in Cost Range A Invitation to Tender.

Industrial Liaison Office

January Business Mission to CERN with:
Femtika
Integrated Fiber Optics
Metal Production
Mechanikos APC

Business Incubation Center

Lithuanian BIC of CERN Technologies:

- ✓ Dec 1 – Jan 31: Phase I, call for applications.
- ✓ Phase I result: 20 Eols.
- ☀ Feb 1 – Mar 31: Phase I, selection (at CERN).
 - Apr 1 – May 31: Phase II, business plans.
 - by June 30: Pitch to Selection Committee, Q&A, winners.

Start-up ideas for:

Medical applications
Industry 4.0
Emerging Technologies
Safety
Society
